Why Use T&B Liquidtight Fittings?

Before your next conduit installation, consider all the reasons why T&B liquidtight fittings are better.

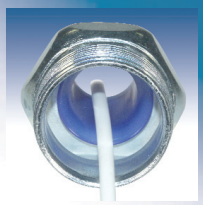
Revolver® Grounding Fitting saves time and money using our infinitely adjustable rotating ground lug. Simply align the lug in your preferred position and tighten the gland. You'll never need to worry about tightening it into an inconvenient position again.

Sure-Tight™ Gland deflects water away from connector and prevents "pooling" of moisture. Look for the distinctive "Pumpkin" appearance of the gland nut.

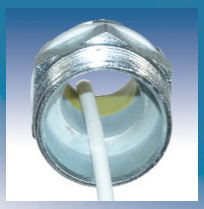
Self-Cleaning Threads inside gland nut keep dirt and grime out of the threads as you tighten.

Double Beveled Sealing Ring is designed with five unique sealing mechanisms and cannot be installed backwards. Look for the unique T&B Blue color, ensuring the highest quality liquidtight product available.

Heat Curled Insulator curled inside body provides excellent wire protection and easier glide of the conductors through and into the fitting. Also, the heat-curled finish gives the insulator more strength compared to "glue-in" versions. Look for the distinctive blue insulator for your assurance of T&B quality.



T&B Heat-Curled Insulator



Competitor Glue-In Insulator

Safe Edge™ Ground Cone provides superior bonding, stronger pullout, easy threading and conductor protection. Look for the distinctive "ski slope" appearance within the "pumpkin" gland nut.

Double Plating for superior corrosion protection; Zinc plating with clear Chromate finish.

Precision Rolled Threads provides smooth, easy installations and is stronger than cut threads. The body is drawn steel for exceptional strength and quality.

Case-Hardened Locknut with Teeth provides superior strength and electrical bonding and can be installed without a wrench in the enclosure.

Broadest Offering of Materials and Finishes including steel, brass, stainless steel, aluminum, PVC coated, malleable iron and nylon. Available in NPT, Metric and PG threads to meet your global solution.

Trust only the 52™ and 53™ Series of liquidtight fittings by Thomas & Betts in your next installation.
